## A CATALOGUE OF MINERALS AND SYNONYMS (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from A Catalogue of Minerals and Synonyms This catalogue was commenced in the year 1867 for use in arranging the collections of the School of Mines of Columbia College, but after many months labor, when the work was nearly completed up to that date, it was abandoned on account of the press of other duties. The collections have since that time increased to such an extent that the necessity of a Museum catalogue has impressed itself upon me many times, but other duties prevented my taking it up. In the year 1885, however, having occasion to make some investigations and finding it almost impossible to get at the different synonyms of the various minerals on account of the imperfections of the indices of the various works, the work was taken up again and finished. It was found that the progress of the science since 1867 had been so great that the work previously done had to be altogether abandoned, so that all that is left of it is the general plan. It is hardly to be hoped that this catalogue is without errors, or that every name which has been published has been found. There are, however, several thousand more names contained in it than in any other published index. In doing the work there have been consulted first of all the collections of the School of Mines, and also the following works: (1) Dana s System of Mineralogy Fifth edition. New York, 1875. (2) Dana s first, second, and third Supplements. New York. (3) American Journal of Science. (4) Elemente der Mineralogie. Naumann. Tenth edition. Leipsic. 1877. (5) Cours de Mineralogie. Delafosse. 3 vols. Paris,...
